REPORT

Of Public School Superintendents of Burlington, for the year ending March, 1852. FELLOW CITIZENS :-

During the last year, your Superintendents have endeavored to serve the town, in discharging the duties of their office, according to the best of their ability. In the examination and licensing of teachers, and the examination of schools, your Superintendents have studied to pursue a course, in their judgment, best adapted to subserve the important interests of pubint education, in this increasing community.

In our fitteen school districts, we have, in all, twenty-three schools. These have, all, save one (No. 5; which is very small,) been visited by the Superintendents, once during the year, and most of them twice. Their plan of operation has usually been, for one, and sometimes two of their number, to visit each school, a Female teacher, ly ancepted by the Queen on the 21st of Feb., in the early part of both the summer and the winter terms, and again, near the close of each, and with a good degree of success, torm. They have, at these times, subjected the entire schools, so far as deemed practicable, to commodations. a pretty thorough examination, in the examination, in the several studies pursued ; have noted the methods of instruction, government, and discipline, pursued by different teachers, First Lord of the Treasury and Prime Min- also the general deportment, application, and proing it best ever to deal plainly, though kindly.
